

Environmental Protection & Spill Response Trailers

SRT10000plus

7'x14' Spill Response Trailer (Standard) 7000lbs

**Other sizes optional, subject to availability*

- 💧 EZ-lube Dual axle, Electric brakes
- 💧 Premium Factory Eco-Paint
- 💧 HD Industrial Steel Shelving
- 💧 Rear Ramp Style Door style (opt)
- 💧 Side door Interior light, pad locks
- 💧 Shelf tie downs, drum straps, labeling
- 💧 HD Equipment Totes for loose Inventory

The SRT1000plus contains sufficient material to cope with spills of up to 10000 liters. It is well equipped for areas where staff is not necessarily equipped to protect themselves and the environment. Pipeline construction sites, truck yards, refueling depots, supply stations, response centres, logging sites and camps. It is ideal for high-risk areas such as sites near lakes and rivers, and foreshore areas such as near fish farms and kelp & oyster cultivation areas. Equipped to work in the dark. It is the ideal spill preparedness unit for sensitive areas, high-traffic environment and anywhere where massive response may be required.
