- 💧 Rear Ramp Style Door style (opt)
- 💧 Side door Interior light, pad locks
- 💧 Shelf tie downs, drum straps, labeling
- 💧 HD Equipment Totes for loose Inventory

The SRT5000plus is our entry-level unit plus a power plant, lighting, PPE and tools to do the job. It specifically designed for off-grid worksites, truck yards, supply depots and remote locations where spills must be mitigated quickly. It contains sufficient materials to cope with a spill up to 5000 liter.

- 💧 Absorbent Materials for
 - HydroCarbons
 - Water-based liquids
 - Hazmat Liquids such as acids and alkalis
- 💧 Various Sealant Materials
- 💧 Emergency Spare Wheel
- 💧 Trailer Immobilizer Wheel Lock

The Plus Configuration

The PLUS configuration equips these trailers much in-line with ECRC~SIMEC's Land Based Spill Emergency Program (LSEP) Specifications without the fuel transfer capabilities which are beyond the scope.

- 💧 Generator and lights
- 💧 UN Approved Disposal Drum
- 💧 Long Handled tools
- 💧 PPE for six person

Need something not listed? Just ask!
